RE: Draft Final Preliminary Assessment/Site Inspection Report  
MMRP Site UXO-08  
Marine Corps Base Camp Lejeune  
Jacksonville, North Carolina

Dear Mr. Beck:

The Superfund Section of the Division of Waste Management has completed its review of the Draft Final Preliminary Assessment/Site Inspection Report for MMRP Site UXO-08, Former Lejeune Cantonment 2.36-inch Bazooka Range, Base CS Chamber and NBC Training Trail (ASR#2.182), and D-7 Gas Chamber (ASR #2.80). Based on the results of the investigation that has been conducted, we concur with the conclusions and recommendations. Specifically, Section 7.8, states that "Based on the results from the PA/SI, no further action is recommended for Site UXO-08. No unacceptable human health or ecological risks from historical munitions activities were identified. Potential ecological risks identified in surface water and sediment resulted from historical industrial activities and will be addressed as part of the five year review for Site 78".

If you have any questions, please contact me at (919) 707-8342.

Sincerely,

Marti Morgan  
Environmental Engineer  
NC DENR Superfund Section
