Draft Expanded Site Investigation Report
Site UXO-01 Military Munitions Response Program
ASR #2.23 – Former Live Hand Grenade Course

Dear Mr. Cleland:

The Environmental Protection Agency (EPA) has completed its review of the above subject document, dated September, 2011 and has one minor comment. EPA agrees with the documented recommendation of “no further action” for Site UXO-01. However, more discussion should be included to provide the rationale for selecting the designated “one acre” area for investigation as opposed to the other remaining nine acres. Upon addressing this comment the document can be prepared as final.

If there are any questions, I can be reached at (404) 562-8538.

Sincerely,
Gena
Townsend
