RE: State Comments on the Site 49, Draft Redlined Proposed Remedial Action Plan (PRAP)
MCB Camp Lejeune, NC6170022580
Jacksonville, Onslow County, North Carolina

Dear Mr. Cleland:

The NC Superfund Section received and reviewed the Draft Redlined Proposed Remedial Action Plan (PRAP) for IR Site 49 located at the Air Station of MCB Camp Lejeune. The Draft Redlined PRAP, dated January 24, 2013, was received for review on January 25, 2013. The Following comments are provided for your consideration and inclusion in the final version of the PRAP.

1. The second and third paragraphs of the RI/FS Activities and Findings listing in Table 1 have grammatical typographical errors. Please make appropriate corrections.
2. Please clarify on Table 2 that the maximum concentrations of Contaminants of Concern (COCs) listed in Table 2 are all from MW-01. If not, the well locations of the maximum concentrations Should be included in Table 2.
3. The third paragraph on the right side of page 10 states that the Navy expects the preferred alternative to satisfy item number 5, "preference for treatment as a principle element". As you know the number 5 CERCLA requirement is not met by Monitored Natural Attenuation (MNA) with Land Use Controls (LUCs). Please remove this CERCLA requirement from the list.
4. Section 10 on page 11 discusses the Administrative Record (AR) file for Site 49. Based on my search results, all supporting documents for the PRAP (e.g. RI/FS) are not included in the Administrative Records files. This document(s) need to be downloaded to the AR prior to the public meeting in February.

If you have any questions or comments, please contact me, at (919) 707-8341 or email randy.mcelveen@ncdenr.gov

Sincerely,

A handwritten signature in black ink, appearing to read "Randy McElveen". The signature is written in a cursive style with a large, prominent "R" at the beginning.
