09 JUL 1993

Mr. Rick Shiver
North Carolina Department of Environment,
Health, and Natural Resources
Division of Environmental Management
Groundwater Section
127 Cardinal Drive Extension
Wilmington, North Carolina 28405-3845

Dear Mr Shiver:

The enclosure is provided for your review and approval. As explained in section 10.4, our preliminary recommendation is for in-situ soil flushing and passive groundwater remediation. Additional field work was conducted in February 1993 to identify the lateral limits of soil and groundwater contamination. We will submit the results of that investigation, along with any changes to our recommendations, as soon as our contractor delivers the report.

If you have questions or comments, please contact Mr. Mark Spangler, Installation Restoration Division, Environmental Management Department, at (919) 451-5872.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert L. Warren".

ROBERT L. WARREN
Assistant Chief of Staff
Environmental Management
By direction of
the Commanding General
