Re: MCB Camp Lejeune; Addition of Site 82 (Piney Green Road)
to Operable Unit #2 with Sites 6 (Storage Lots 201 and
203) and 9 (Fire Fighter Training Pit)

Dear Ms. Glenn:

As you are aware, the areas of investigation for Operable Unit #2 (Sites 6 and 9) have expanded beyond those areas described in the original RI/FS Project Plans. In the course of these RI/FS field work efforts we discovered contamination north of the Lot 203 area of Site 6. Subsequently, we expanded the investigation further north in an attempt to define the limits of the contamination. The areas investigated during the RI/FS field work efforts for Operable Unit #2 eventually expanded to the extent that Site 82 (Piney Green Road), which adjoins Lot 203 to the north, was fully investigated as part of these field work efforts. As such, we propose Site 82 be added to Operable Unit #2 and included in the RI/FS documentation for this operable unit, which we will submit within the next two months. Additionally, we propose the Site Inspection for Site 82 be revised to recommend a RI/FS and finalized.

As we are currently preparing RI/FS documentation for Operable Unit #2, please provide a response to these proposals by May 7, 1993.

Please direct any questions concerning this matter to Mr. Byron Brant at (804) 445-2931.

Sincerely,

L. A. BOUCHER, P.E.
Head
Installation Restoration Section
South
Environmental Programs Branch
Environmental Quality Division
By direction of the Commander
