Re: Contract N47408-92-D-3042, Removal of Drums at Site 6, Marine Corps Base,
Camp Lejeune, North Carolina

Gentlemen:

This letter is in regard to the disposition of debris removed from excavations on the referenced contract. The EPA will allow us to place debris back in the excavation it was removed from as long as laboratory results show the stockpiled soil is not RCRA hazardous. The debris includes all communication wire, shell casings, and similar materials, but does not include drum remnants, and other materials that may be mistaken for possible contaminant sources.

Please call me at (910) 451-2583 if you have any questions or concerns.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Challeen".

STEVE CHALLEEN
LT, CEC, USN
Administrative Contracting Officer
