SUBJ: MCB Camp Lejeune  
Draft Project Plans - Site Inspections  
Sites A, 12, 68, 75, 76, 84, & 85

Dear Ms. Landman:

The Environmental Protection Agency (EPA) has completed its review of the above subject document. The sampling plans detailed in this report should produce adequate information to assess the characteristics of each site. However, it is also important to run a small percentage of the samples thru the full scan analysis. This information could possibly eliminate future questions at the remedial investigation stage.

If there are any questions or comments, please call me at (404) 347-3016.

Sincerely,

  
Gena D. Townsend  
Senior Project Manager
