Re: Contract N62470-95-D-6007  
Navy CLEAN II, District III  
Contract Task Order (CTO) 0219  
Pre-Final Version 3.0 Record of Decision (ROD) Report for Operable Unit (OU) No. 6  
(Sites 36, 43, 44 and 54)  
Marine Corps Base, Camp Lejeune, North Carolina

Dear Mr. Stevens:

Baker Environmental, Inc. (Baker) is pleased to submit two copies of the Pre-Final Version 3.0 Record of Decision (ROD) Report for Operable Unit (OU) No. 6, Sites 36, 43, 44 and 54. Two copies have also been forwarded to Mr. Rick Raines at MCB, Camp Lejeune, two copies to CH2M Hill, and one copy to IT Corporation. Copies of the report have also been distributed to representatives of the U.S. Environmental Protection Agency (EPA) Region IV (two copies), the North Carolina Department of Environment and Natural Resources (one copy to Superfund Section and one copy to Wilmington Regional Office), and the Naval Environmental Health Center (one copy).

This ROD presents the selected remedial action alternatives (RAAs) for OU No. 6. For Site 36 excavation and off site disposal of polynuclear aromatic hydrocarbon (PAH) and pesticide areas, land use controls for lead contaminated soil and monitored natural attenuation for groundwater have been selected. An off site disposal alternative has also been selected for an area of localized PAH contamination at Site 43. Sites 43 and 44 have land use controls to prevent intrusive activities within these former disposal areas. A groundwater monitoring program has been recommended for lead at Site 54.

The necessary Land Use Control and Implementation Plans (LUCIPs) for Sites 36, 43, 44 and 54 have been included as attachments to this ROD. The Corrective Action Plan (CAP) for Sites 36 and 54 is also an attachment to this ROD.

As you are aware, the EPA has requested that the Final Record of Decision (ROD) for OU No. 6 be completed in Fiscal Year 2002. To ensure the project meets this aggressive schedule, we would like to receive your comments on the ROD by May 24, 2002 (20 business days).

As always, Baker appreciates our long relationship with MCB, Camp Lejeune and the opportunity to provide services to the Base and LANTDIV. Should you have any questions or concerns regarding this report, or if I can be of further assistance on any other CTO-0219 issue, please do not hesitate to contact me at (412) 269-2055.

Sincerely,

**BAKER ENVIRONMENTAL, INC.**
