Re: MCB Camp Lejeune; Hadnot Point Industrial Area-(Site 78,
Operable Unit 1) Expedited Site Management Schedule for
the Design of the Interim Remedial Action

Dear Mr. Burger:

As discussed in our January 26, 1993 letter, the timelines for several tasks, including agency review have been minimized. In an attempt to minimize timelines for agency review, plans to conduct a meeting to review 30% design plans are underway.

As previously discussed, please plan to host a design review working session on March 23, 1993 at your office. We plan to meet from 9:30a.m. until 5:00p.m., with a one hour break for lunch. This meeting will be held as a working review session to discuss the 30% plans and specifications with the result of the meeting being an informal collection of all review comments.

The plans and specifications prepared as part of the 30% submittal will be forwarded directly to you seven (7) days prior to the meeting for your review.

We request that State send the pertinent people responsible for review of these design drawings to this working session. At the conclusion of the meeting, we anticipate having an informal set of review comments by which the contractor can work in preparing the 90% plans and specifications. According to the expedited schedule, formal comments are due to LANTNAVFACENGCOM no later than one week after the meeting.
