RE: Comments on the Draft Recommendations, Review and Removal Action Report  
Operable Unit (OU) # 19, Site 84 at MCB Camp Lejeune, NC  
Soil and Groundwater  
Camp Lejeune, NC6170022580  
Jacksonville, Onslow County, North Carolina

Dear Mr. Hood:

The NC Superfund Section has received and reviewed the OU #19 (Site 84) Draft Recommendations Report dated April 2006 for the Camp Lejeune, MCB Superfund Site located in Jacksonville, NC. The following comments including the WRO Comments by Ginny Henderson's (attached) are offered for the Partnering Teams consideration. If you have any questions or comments please contact me at (919) 508 8467.

#### **General Comments**

Other than these comments the work plan appears to be in good order. It is recommended that we remove all the details of Partnering Meeting Minutes that discuss sites other than Site 84. These excessive details make it very difficult to follow the process at the site and review the document. Please try to simplify the document as much as possible.

#### **Specific Comments**

1. The last sentence of the second paragraph of Section 3.2 on page 10, the last paragraph on page 12 of the Recommendations Report and the first paragraph of Section 5.5 on page 16 states that PCB contaminated soil will be left in place that is greater than 50 ppm because numerous active utilities are located along this gravel access road. We discussed this in one of the partnering meetings. Have all the
