SUBJ: Record of Decision
Operable Unit 18, Site 94
MCB Camp Lejeune NPL Site
Jacksonville, North Carolina

Dear Commanding Officer:

The U.S. Environmental Protection Agency (EPA) Region 4 has reviewed the above subject decision document and concurs with the selected remedy for Site 94. This remedy is supported by the previously completed Remedial Investigation and Baseline Risk Assessment Reports.

The selected remedial alternative is no further action. This involves taking no further remedial actions at the site and leaving the environmental media as they currently exist. This remedial action is protective of human health and the environment, complies with Federal and State requirements that are legally applicable or relevant and appropriate to the remedial action and is cost effective.

EPA appreciates the coordination efforts of MCB Camp Lejeune and the level of effort that was put forth in the documents leading to this decision. EPA looks forward to continuing the exemplary working relationship with MCB Camp Lejeune and Atlantic Division Naval Facilities Engineering Command as we move toward a final cleanup of the NPL site. If you have any questions, please contact Gena Townsend of my staff at (404) 562-8538.

Sincerely,

A handwritten signature in cursive script, appearing to read "Beverly H. Banister".

Beverly H. Banister, Acting Director
Waste Management Division
