Draft Preliminary Assessment/Site Investigation Report
Former 1,000-inch Range
Amphibious Base Area – UXO-15

Dear Mr. Beck:

The Environmental Protection Agency (EPA) has completed its review of the above subject document, dated September 2009. Arsenic was detected throughout the investigated area and appears to be naturally occurring and not a constituent of the range activities. Based on the data/information presented in this report, EPA agrees with the no further action recommendation.

If there are any questions, I can be reached at (404) 562-8538.

Sincerely,
Gena
