SUBJ: OU 6 RI/FS Workplan Proposed Revisions dated January 4, 1999.

Dear Mr. Radford:

The U.S. Environmental Protection Agency (EPA) has reviewed your January 4, 1999, letter, outlining NCDENR requested changes with responses and requesting EPA concurrence of proposed modifications to the previously EPA approved OU 6 RI/FS Workplan.

EPA has reviewed the proposed workplan modifications and concurs that EPA's November 5, 1998, approval is not substantively or adversely impacted. Therefore, EPA's OU 6 RI/FS Workplan approval remains intact, and EPA recommends timely finalization of the workplan and commencement of field activities.

If you have any questions, please call me at (404) 562-8542.

Sincerely,
