Subject: RE: NC Tier I/II Joint Conference Dates

All,

It sounds like we agree then. Assuming the Tier I/II conference will wrap up
around noon on Wednesday, May 12th, let's plan on meeting Wednesday afternoon
and Thursday. Erica said that she could get us the OU1 PRAP early in the week
of April 5, so let's also plan on a conference call the week of April 12 to
share our comments and touch base before the public meeting.

Please let me know if you have any questions/concerns!

Subject: RE: NC Tier I/II Joint Conference
Dates

Team:

After much discussion with members of the team, the consensus seems to be to shift the partnering meeting to immediately following the Tier I/II conference in May at Chapel Hill and to shift the RAB meeting to the second hour following the OUI NFA Sites PRAP Public Meeting on April 20. However, one new wrinkle to the decision is that Jason, the new NAVFAC RPM to eventually replace Rachel, will be starting next week. If we don't meet in early April, the team will not get to meet Jason until the day of the Public Meeting (Rachel will attend as well). Please let me know if anyone has a concern about that, or if anyone has any final concerns about the potential shift in the partnering and RAB meeting.

Thanks!

Doug

Subject: NC Tier I/II Joint Conference Dates

Hi Everyone,

May 11 & 12 have been chosen for the NC Tier I/II Joint Conference so please plan accordingly. Below is the tentative schedule for the meeting:

Tue, 11 May, 2010 from 0830 - 1630 hrs
Wed, 12 May, 2010 from 0830 - 1200 hrs

Suggested agenda topics are:

1. Camp Lejeune In-Situ Cleanup Technologies (examples: Vapor Intrusion, Bioaugmentation and/or Phytoremediation); 2. MMRP (detection, hazards and regulatory); 3. EPA DoD Harmonization Process; and 4. Stakeholder Involvement

Should you have any suggestions for agenda topics, let me know.

The location has not been selected but will be somewhere in the Research Triangle area (i.e. Raleigh, Chapel Hill, Durham). I'll send out information on the location when it becomes available.

Thanks!
Jeff
