Raleigh, North Carolina 27611-7687

Dear Mr. Rhodes:

You are hereby invited to attend a Technical Review Committee (TRC) meeting for the Air Station on Tuesday, July 30, 1991. This meeting will begin at 9:00 a.m. and will end at approximately 2:00 p.m. The meeting will be held in the Facilities Engineering Department Conference Room at Building 163.

Please find enclosed an agenda for July 30, 1991 and a location map identifying Building 163. Please park in visitor's spaces out front of Building 163 or in the parking lot between Building 163 and the Cherry Point Federal Credit Union. An access letter will be sent to the front gate pass office to authorize vehicle passes to enter the Air Station.

The main topic of discussion will be the recently completed RCRA Facilities Investigation Report for Sites 5, 10, 16 and 17. This report summarizes all work related to these sites and discusses proposed future investigation/remediation to be accomplished. Familiarity with this document will enhance your input to the meeting. A copy of this report has been previously submitted to you.

We hope to see you at the TRC meeting. If you need any assistance or have any concerns, please feel free to contact George Radford at (919) 466-4598.

Sincerely,

R. D. Nelson
Natural Resources and
Environmental Affairs Officer
By direction of the
Commanding General
