1. The subject studies have been completed. We are pleased to enclose the final reports for your review and future reference.
2. The Natural Resources and Environmental Affairs Department is most appreciative of the support provided by your environmental staff. Specifically, Danny Miller provided extremely valuable information about the Naval Aviation Depot complex. His expertise and support expedited the required site investigation and resulted in more complete and comprehensive reports.
3. Should you have questions regarding the reports, please contact Renee Henderson or myself at (919) 466-4598/4599.
