Good Morning All,

I don't have a problem with George's comments. The signature page should not be a big issue. George, sorry I thought I corrected your address, I will check and make sure it is recorded correctly in my group listing.

RE: EPA comments Draft ROD OU14

I have review the Draft OU14 ROD and have also reviewed the EPA comments on same. In general EPA has covered all my concerns so I will not restate them here. I would prefer, however, to have the signature page look in format to the OU6 ROD signature page instead of what is suggested by EPA. In addition, on page 2-22 of the OU14 ROD please footnote the phrase "four consecutive sampling events" to read:

The four consecutive sampling events shall occur no closer together than quarterly. While quarterly sampling events are preferred, the maximum time between samples should be one year or less.

Thank you,

George Lane

Subject: EPA comments Draft ROD OU14

Hi all,

Attached are EPA's comments on the draft OU14 ROD. I am attaching the pdf comment summary which contains EPA's embedded comments. I have only included the pages of the ROD that contained comments. In an effort to save time and cost, please submit the corrected version (draft final) electronically. This is the version that EPA will use to send the land use control language to EPA HQs for verification. Once we (Region 4) gets the approval from HQs to move ahead, the document can be prepared as final and submitted for signature. If there are any questions or clarification, please call. I will be in the office until Thursday and will be on travel next week to Camp Lejeune. Doug, If you need to get in touch with me next week, call Matt and have him give me a message. I will get back to you as soon as I can.
