Attn: Ms. Carol Witt-Smith (5HR-13)
230 South Dearborn Street
Chicago, IL 60604

Dear Ms. Witt-Smith:

Naval Weapons Support Center Crane (NWSCC) requests a 45 day extension on the due date of September 13, 1990 for submission of the revised Modified RFI Phase III Groundwater Release Characterization Work Plan for the Ammunition Burning Grounds (ABG). The issue of extensions on due dates was discussed with you during your visit August 7 - 9, 1990 to watch the tracer test being conducted at the ABG. The indication as that time was there would be no problem in granting an extension on this due date.

This extension is being requested because individuals responsible at the Army Corps of Engineers for revising this document were involved in conducting the aforementioned tracer test and were unable to revise said plan. This request is submitted in accordance with Section I.D. 13 on page 4 of 48 in the NWSCC's Part B Permit.

NWSCC point of contact is Mr. Jim Hunsicker, Code 0924, telephone 812-854-3233.

Sincerely,

M. L. FREY
