U.S. Environmental Protection Agency
Region V
Attn: Ms. Carol Witt-Smith (5HR-13)
230 South Dearborn Street
Chicago, IL 60604

Dear Ms. Witt-Smith:

Naval Weapons Support Center Crane (NWSCC) requests an extension on due dates for submission of RCRA Facility Investigation (RFI) Phase III Groundwater Release Characterization Work Plans for the Pest Control, Solid Waste Management Unit (SWMU) #09/05, McComish Gorge, SWMU #04/02 and Old Burning Pit, SWMU #05/03. NWSCC purposes submitting one work plan that would address all three SWMU's. The new due date for submitting this new Phase III Groundwater Release Characterization Work plan would be August 1, 1991.

The request for this extension is based on contractual delays encountered by the Navy when selecting a new contractor to develop the aforementioned plans. We have retained the services of the U.S. Army Engineers, Waterways Experiment Station. This request is submitted in accordance with Section I.D. 13 on page 4 of 48 in the NWSCC's Part B Permit.

NWSCC point of contact is Mr. Jim Hunsicker, Code 0924, telephone 812-854-3233. The Northern Division, Naval Facilities Engineering Command (NORTHNAVFACENGCOM) point of contact is Mr. Byron Brant, Code 1423/BB, telephone 215-897-6280.

Sincerely,

J. Murphy
J. MURPHY
