Subject: ORR Supplemental Sampling

Gents,

I received the supplemental sampling plan for ORR. It looks pretty good - I just have a couple of questions:

- 1) The last paragraph of the first page of text states that 5 sampling locations are shown on Figure 1. I count six on Figure 1 and seven total samples on Table 1.
- 2) What are your thoughts on perhaps adding a sample location between SB49 & SB50?
- 3) I assume SB48 is located at the valve/pipe exit?

Thx,
Pete
