Re: Letter of Approval
Corrective Measures Proposal Report
SWMU #7 – Old Rifle Range/Old Pistol
Range – July 2006

Dear Mr. Brent:

The United States Environmental Protection Agency (U.S. EPA) has reviewed the Navy's Response to Comments and revised Final Corrective Measures Proposal (CMP) Report for Solid Waste Management Unit (SWMU) #7 – Old Rifle Range/Old Pistol Range dated July 2006. The CMP proposed remedial alternative for lead contaminated soil at the Old Pistol Range is removal and the proposed alternative for explosives impacted groundwater at the Old Rifle Range is natural attenuation with monitoring and institutional controls.

The CMP report is approved. The U.S. EPA and the Navy will proceed with preparation of a Statement of Basis and public notice for the proposed remedial alternative and a remedial design.

If you have any questions regarding this matter, please contact me at (312) 886-7890.

Sincerely,

Peter Ramanauskas
Environmental Scientist
RCRA Corrective Action Section
