• **Final RCRA Facility Investigation (RFI) Report**

Dear Mr. Brent:

Via email dated May 18, 2012, the Indiana Department of Environmental Management (IDEM) approved and concurred with the No-Further-Action (NFA) recommendation for SWMU 28 – Maintenance Shop Building 1820 Area at Naval Support Activity (NSA) Crane in Crane, IN. This NFA approval was based on the draft-final RCRA Facility Investigation (RFI) Report for SWMU 28 that was prepared by Tetra Tech and submitted by the Navy to IDEM via cover letter dated May 2, 2012.

Based on IDEM's approval of NFA for SWMU 28, no changes are required to the previously submitted draft-final RFI Report and it is considered final.

As requested, attached please find an updated and revised "final" cover and spine for your copy of the subject RFI Report. Via copy of this letter, we are also providing a bound hard copy of the final RFI report to Mr. Howard Hickey; the hard copy includes a hard copy of the text, figures and tables and a CD of the appendices. A complete hard copy and a pdf version of document on CD are being provided to Mr. Glen Wagner for the Administrative Record.

Please contact me at 513-333-4815 (Tony.Klimek@TetraTech.com) or George Ten Eyck at 513-333-4822 (George.TenEyck@TetraTech.com) if you have any questions regarding this project.

Sincerely,

A handwritten signature in blue ink that reads "Anthony P. Klimek".
