Subject: our concerns/recommendations for Thursday's meeting -Davisville Calf Pasture Point

We've been discussing your draft proposal for the investigation at Calf Pasture Point today and have put together a memo in preparation for Thursday's meeting that we'd like to share with you. We've not addressed the source area , DQO page 1, as other than asking questions- what is the purpose of the wells? what is the rationale behind the 50,000 ppb screening level?

(See attached file: NCBC-Site07-DQO -rev 1.DOC)(See attached file: Figures.pdf)
