Reference: Response to EPA and RIDEM Comments on the Draft Second Five Year Review Report, Former Naval Construction Battalion Center Davisville, North Kingstown, RI

Dear Ms. Williams/Mr. Gottlieb:

Please find enclosures (1) and (2), which provide the Navy responses to EPA and RIDEM comments on the subject report. These responses reflect the collaborative agreement reached between the Navy and EPA during a telephone conference on February 14<sup>th</sup>. Navy and EPA have reached agreement that the remedies for both Site 07, Calf Pasture Point, and Site 09, Allen Harbor Landfill, have been and are currently protective in the short term.

In enclosure (1), we have provided the revised language we propose to use in the Draft Final Five Year Review Report to ensure continued protectiveness during the community's future enjoyment of both sites. The Draft Final Report is anticipated to be mailed on 29 February 2008.

At our conference call, we discussed that both LTMPs will be updated, and we look forward to vigorous and respectful discussions during the Data Quality Objectives (DQO) meeting(s), which are required by the Uniform Federal Policy for Quality Assurance Project Plans (UFP-QAPP).

If you have any questions, please do not hesitate to contact the Remedial Project Manager, Mr. Curt Frye, at 215-897-4914.

Sincerely,

David Barney  
BRAC Environmental Coordinator  
By Direction of BRAC PMO

Enclosures:

1. Navy Responses to EPA Region I comments on Draft Second Five Year Review Report, December 2007 (comments dated 08 FEB 2008, received 20 FEB 2008)
2. Navy Responses to RIDEM comments on Draft Second Five Year Review Report, December 2007 (comments dated 06 FEB 2008)
