RE: Site 03 Work Plan Addendum No. 2
Interim Ground-Water Sampling Program
Naval Construction Battalion Center
Davisville, Rhode Island
Submitted 14 November 2001, Dated November 2001

Dear Mr. Boyle;

The Rhode Island Department of Environmental Management, Office of Waste Management (RIDEM) has reviewed the above referenced document and finds it to be acceptable. Please note, however, that in order to have a sense of how the plume is changing with time Well MW03-14 (identified source area) should also be sampled in the future. This will provide a more complete picture of the current extent and nature of the plume.

RIDEM would like to thank you for the opportunity to comment on this document and looks forward to working with the Navy and USEPA. If you have any questions or require additional information please call me at (401) 222-2797 ext. 7138.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Gottlieb".

Richard Gottlieb, P.E.
Principal Engineer
