RE: Long Term Risk Monitoring Plan
Site 07, Calf Pasture Point
NCBC Davisville, Rhode Island
Submitted 25 November 1998, Dated 23 November 1998

Dear Mr. Otis;

The Rhode Island Department of Environmental Management, Office of Waste Management (RIDEM) has reviewed the above referenced document and has an additional comment to offer based on a re-examination of the data: Section 2 (Site Background) notes that the groundwater under Site 07 is classified by RIDEM as GB. Please revise this to GA-NA. In addition, RIDEM Comment 7 of the 18 December 1998 letter on the same subject needs to be revised to reflect GA groundwater standards as follows:

<u>Compound</u>	<u>Proposed Trigger Value</u> mg/l	<u>RIDEM GA Groundwater Standard</u> mg/l
Benzene	2.0	0.005
1,2-Dichloroethane	8.4	0.005
1,1 Dichloroethene	0.1	0.007
1,2-Dichloroethene	4.9	0.007
Tetrachloroethene	0.3	0.005
1.1.2-Trichloroethane	2.0	0.005
Trichloroethene	3.3	0.005
Vinyl Chloride	0.4	0.002

If you have any questions or require additional information please call me at (401) 222-2797 ext.7138.

Sincerely,

A handwritten signature in black ink, appearing to read 'Richard Gottlieb', with a long, sweeping horizontal stroke extending to the right.

Richard Gottlieb, P.E.
Principal Engineer
