Let's Be Sure Our Children Grow Up Smart And Fit.

We know our children won't get very far in the world
without a good working knowledge of the "3R's"
that will help them such as an important part
of their lives. But there's another part of their
education that just as important to their future
- physical education.

The health benefits they develop now will go a long way
toward helping them grow into healthy adults.
And the good fitness habits they learn can stay with
them for a lifetime. So let's encourage our children
to exercise their minds. But let's be sure they
do the same for their bodies.
