Re: Summary Report for Camp Fogarty Firing Range date September 1994, Naval Construction Battalion Center, RI

Dear Mr. Krivinskas:

Pursuant to § 7.6 of the NCBC Federal Facility Agreement (FFA), the Environmental Protection Agency (EPA) has reviewed the above referenced document.

In general, the report is well organized and contains sufficient information to assess the need for additional investigation. The site ground water map shows the range as down gradient from the CERCLA Site 10. The Navy should use the information contained in this document as it pertains to Site 10 in finalizing the Phase II RI for Site 10.

I look forward to discussing these comments at your earliest convenience, please contact me at (617) 573-5736.

Sincerely,

Christine A.P. Williams
Remedial Project Manager
Federal Facilities Superfund Section
