Subject: APPROVAL OF UST REPORT AND WORK PLAN, NWS EARLE

1. I called Bob regarding a letter he sent to NWS Earle dated 25 April. The subject of the letter was the Final Site Characterization Report for Bldg C-17, which was dated May 92. However, the body of the letter discussed a work plan dated June 93.
2. Bob said he sent a letter in February approving the June 93 work plan. The 25 April letter was intended to approve the May 92 Site Characterization Report.
3. I told Bob that I had not received the February letter and asked him to fax me a copy. I don't believe John Pawlus received it either.
