

Minnesota Pollution Control Agency

June 17, 1993

Commanding Officer
Mr. Christopher Bartku, Code 1862
Southern Division
Naval Facilities Engineering Command
North Charleston, South Carolina 29419-9010

Dear Mr. Bartku:

RE: Request for Extension of Comment Period for Remedial Investigation Report for the Soils Operable Unit for Naval Industrial Reserve Ordnance Plant (NIROP), Fridley, Minnesota

The Minnesota Pollution Control Agency (MPCA) in consultation with the U.S. Environmental Protection Agency (EPA) staff, requests an extension to the comment period for the Remedial Investigation Report for the Soils Operable Unit for NIROP, Fridley, Minnesota site. The original comment period for the referenced document was listed as closing on June 21, 1993. MPCA staff, however, did not receive the document until May 24, 1993. The MPCA staff requests an extension of the comment period for an additional seven (7) days beyond June 21, 1993. MPCA staff believes that the review can be completed and comments sent to you by June 28, 1993. This extension is needed to conduct a complete review of the document.

We appreciate your consideration of this request. If you wish to discuss this letter, please call me at (612) 296-7775.

Sincerely,

A handwritten signature in cursive script that reads "Steven D. Giddings".

Steven D. Giddings
