Minneapolis, Minnesota 55421-1406

RE: Naval Industrial Reserve Ordnance Plant

Dear Mr. Mosites:

The Minnesota Pollution Control Agency (MPCA) staff has reviewed the proposed agenda for the April 6, 1995, Restoration Advisory Board (RAB) meeting and has the following response.

Please place the project schedule (and/or the site management plan) referred to in the enclosed telefax from David Cabiness to me, dated February 7, 1995, on the agenda. Please add to the schedule any other important items such as the geophysical and the East Plating Room studies.

Please provide all RAB members with a copy of the project schedule at the beginning of each meeting. I recommend that the project schedule be discussed toward the end of the RAB meeting and that schedule revisions be highlighted so that members can track any changes to the previous project schedule. Please place the project schedule as an item on all future RAB meeting agendas.

Please let me know before the meeting why the item entitled, "Agency for Toxic Substances and Disease Registry Study" is on the agenda.

Please place the following MPCA staff on the list of attendees for the next and future RABs:
Gary Eddy, John Betcher, Mark Ferrey, Paul Trapp, and myself.

Mr. Patrick Mosites
