Commanding Officer
Southern Division
Naval Facilities Engineering Command
PO Box 190010
North Charleston, South Carolina 29419-9010

RE: Naval Industrial Reserve Ordnance Plant Site

Dear Mr. Cabiness:

The Minnesota Pollution Control Agency (MPCA) staff hereby requests an extension of 20 days for review and response to the document entitled, "Feasibility Study for Soils Operable Unit, Naval Industrial Reserve Ordnance Plant, Fridley, Minnesota," dated April 1995 (FS Report) pursuant to Section 14.7 of the Federal Facility Agreement, dated March 27, 1991, between the MPCA, the U.S. Environmental Protection Agency, and the U.S. Navy. The FS Report was received on April 26, 1995. The extension deadline for an MPCA staff response would change from May 26, 1995 to June 15, 1995.

This request is made due to the complexity of the FS Report, other MPCA staff workload commitments for NIROP and other sites, and MPCA staff availability.

If you have any questions regarding this letter, please give me a call at (612) 296-7818.

Sincerely,

A handwritten signature in black ink, appearing to read "David Douglas".

David Douglas
Project Manager
Response Unit 1
Site Response Section
Ground Water and Solid Waste Division
