RE: Naval Industrial Reserve Ordnance Plant

Dear Mr. Glass:

The Minnesota Pollution Control Agency (MPCA) staff approved, with modification, the "Plan of Action for OU3 Remedial Investigation, Feasibility Study, Proposed Plan, and Record of Decision for Naval Ordnance Plant, Fridley, Minnesota" (POA) dated May 15, 1995, for Operable Unit 3 for the NIROP Site in a letter dated August 4, 1995. Modifications originally intended to be included in Attachment 1 were mistakenly included in the comments in Attachment 2. Specifically, items 2 and 3 in Attachment II should have been listed as modifications in Attachment 1. Attachment 2 should only contain 2 comments (items 1 and 4 on the copy you received). Please make these changes to our formal response to the above referenced document.

If you have any questions regarding this letter, please contact me at (612) 296-7818.

Sincerely,

David Douglas
Project Manager
Response Unit 1
