Contract Task Order 0003

Subject: Naval Industrial Reserve Ordnance Plant, Fridley Minnesota
Remedial Investigation Report for OU3 (Revised)

Dear Joel:

Please find enclosed two copies of the Revised NIROP Fridley OU3 Remedial Investigation Report. We are only issuing a revised Volume 1, since this is adequate to address the regulatory comments. The regulatory comments were provided in the following letters:

- January 19, 1999 (MPCA),
- February 19, 1999 (US EPA), and
- June 3, 1999 (MPCA)

A few outstanding issues remained after the exchange of letters, and these were addressed in several teleconferences and during the Partnering Meeting of June 30 1999. Since the magnitude of the revisions necessitated a new volume, the August, 1998 Volume 1 should be discarded in its entirety. However, Volumes II, III, and IV should be retained. The original covers on these volumes should be replaced with the green covers provided. Additionally, the enclosed appendices should be inserted in the appropriate volumes, per the sequential numbering system.

If you have any questions, feel free to call me at (412) 921-8216.

Sincerely,

Mark Sladic, P.E.
Task Order Manager
