Attention: Water Billing

Subject: Discharge of Extracted Groundwater from Naval Industrial Ordnance Plant (NIROP) System

The NIROP groundwater extraction system did not discharge any ground water to the sanitary sewer system during the first quarter of 2000. Effective 30 June 2000 United Defense will not be involved in the operation of the groundwater treatment facility. Correspondence relating to the discharge volumes from the NAVY Groundwater system will be handled by the USNAVY and the contractor currently operating the treatment system (Bay West Inc.) The information for contact is listed below:

USNAVY	(Operating Contractor) Bay West Inc.
