Re: Responses to Comments on the Draft Remedial
Investigation and Risk Assessment Report
Site 7 – RTC Silk Screen Shop

0971255048 – Lake
Great Lakes Naval Station
Superfund/Technical

Dear Mr. Robinson:

The Illinois Environmental Protection Agency (Illinois EPA) is in receipt of the Responses to comments on the Draft Remedial Investigation and Risk Assessment Report, Site 7 – RTC Silk Screen from Tetra Tech NUS, Inc. The responses were received via electronic mail on August 12, 2002. The Agency has reviewed the Navy's responses to Illinois EPA's comments and the groundwater modeling calculations and grants its concurrence with those responses. However, since the revised report is not currently in the Agency's possession, actual verification that the listed changes have been made is not possible. Therefore, Illinois EPA reserves the right to submit further comments upon receipt of the revised or Draft Final Remedial Investigation and Risk Assessment Report and performing a thorough review.

If you have any questions or require additional information, please contact me at (217) 557-8155 or by electronic mail at brian.conrath@epa.state.il.us.

Sincerely,

Brian A. Conrath
