RCRA Closure Log No. C-689
Rust E&I Project No. 101989

Dear Mr. ^{Ed}Bakowski:

Enclosed for your review and approval please find three (3) copies of a RCRA Closure soil and groundwater sampling plan for the Great Lakes Naval Training Center (GLNTC). This plan is being submitted on behalf of Mr. David Cabiness of the Navy in response to IEPA's letter to Mr. Mark Schultz of GLNTC, dated September 9, 1996, and pursuant to discussions with IEPA staff during a meeting at GLNTC on December 10, 1996, which modified the sampling requirements identified in the September 9, 1996, letter. A copy of the January 13, 1997, letter to yourself from Mr. Cabiness that includes the meeting minutes from the December 10, 1996, meeting is included for your reference.

The enclosed sampling plan is abbreviated since its primary purpose is to identify where additional soil and groundwater samples will be collected to estimate the extent of soil and groundwater contamination in the vicinity of the former RCRA hazardous waste container storage areas at GLNTC Buildings 105, 415, and 912. Soil and groundwater sample collection procedures and laboratory analytical methods will be the same as those used

Mr. David Cabiness

previously for this project which are in accordance with IEPA RCRA closure guidance and USEPA SW-846 requirements.

If you should have any questions concerning this RCRA Closure Sampling Plan, please contact Charlie Zeal at (920) 458-8711, or David Cabiness at (803) 820-7484.

Sincerely,

Charlie Zeal, P.E.
Project Manager
