RAB meetings provide a forum for a diverse group to discuss subjects related to the environmental restoration program at NAB Little Creek. All RAB meetings are open to the public, and everyone is encouraged to attend. To enable my staff to fully address your concerns, I invite you to call Ms. Kelly Greaser prior to the meeting with any questions you have or any topics you would like to add to the agenda. I also encourage you to present your comments and concerns during the meeting.

NAB Little Creek is also pleased to announce the availability of the Final Site Management Plan (SMP) for Fiscal Year 1999. The SMP presents a site history, summary of investigations, and the proposed plan of actions for each Installation Restoration Site and active SWMU. Based upon member's requests, the Final SMP or its Executive Summary is provided as enclosure (2).
