Subject: EE/CA for sites 7 and 8

I have reviewed the Engineering Evaluation and Cost Analysis (EE/CA) for SWMU 7 and SWMU 8 (dated March 2004) at the Naval Amphibious Base Little Creek.

The proposed removal actions are in accordance with the courses of action agreed upon at our meetings and I have no comments on the document. I recommend the removals be implemented as described.

Thank you for the opportunity to review this document.

Dennis Orenshaw
