Team,

This email serves to document a telephone conversation held between EPA (Jeffrey M. Boylan) and CH2MHILL (David Livingston) on August 23, 2010. The purpose of the call was for EPA to provide editorial follow-up comments on the "Draft Final Site Screening Process Closeout Report for Anti-Aircraft Target Rifle Range, 1944 Pistol Range, and 1953 Pistol Range" in lieu of the formal comment and response process. The document was also reviewed by EPA to verify previous comments (provided via a March 11, 2010 conference call) had been incorporated into the document. In addition, other agreed upon changes were made to the document.

All previous comments have been incorporated into the document and the additional editorial follow-up comments have been provided. EPA offer no further comments at this time and looks forward to receiving and signing the final hardcopy version of the document.

Subject: Draft Final SSP Closeout Report for Ranges

Hello everyone,

I hope you all had a nice weekend. Attached is an electronic transmittal letter for the Draft Final Site-Screening Closeout Report for the A-A Target Rifle Range, 1944 Pistol Range, and 1953 Pistol Range indicating the document has been posted on the ftp site and is now ready for your review. The link and access information for the ftp site is below. Please note the document is in redline form. If you have any difficulty accessing the document, please let me know.

Thanks,

David
