Subject: Fw: Draft SSP Closeout Report for Depth Charge Testing Area

Team,

This email serves to document a telephone conversation held between EPA (Jeffrey M. Boylan) and CH2MHILL (David Livingston) on September 17, 2010. The purpose of the call was for EPA to provide editorial follow-up comments on the "Draft Site Screening Process Closeout Report for the Depth Charge Testing Area" in lieu of the formal comment and response process. In addition, other agreed upon changes were made to the document to be consistent with the SSP Closeout Report for the Ranges.

EPA offer no further comments at this time and looks forward to receiving and signing the final hardcopy version of the document.

Subject: Draft SSP Closeout Report for Depth Charge Testing Area

Hello everyone,

Attached is an electronic transmittal letter for the Draft Site-Screening Closeout Report for the Depth Charge Testing Area indicating the document has been posted on the ftp site and is now ready for your review. The link and access information for the ftp site is below. If you have any difficulty accessing the document, please let me know.

Thanks,

David
