Virginia Department of Environmental Quality
Attn: Mr. Paul Herman, P.E.
629 Main Street, 4th Floor
Richmond, VA 23219

Subject: Response to VDEQ Comments on the
Site Management Plan Fiscal Years 2016 through 2020
Joint Expeditionary Base(JEB) Little Creek-Fort Story, JEB Little Creek, Virginia Beach,
Virginia
Navy CLEAN 8012, Contract N62470-11-D-8012, Task Order WE61

Dear Mr. Herman:

On behalf of the Navy, CH2M HILL is pleased to submit the following response to the comments from VDEQ received via email on July 2, 2015 on the *Site Management Plan Fiscal Years 2016 through 2020, Joint Expeditionary Base (JEB) Little Creek-Fort Story, JEB Little Creek, Virginia Beach, Virginia*:

General: Editorial changes were made as suggested.

Comment 1: Section 2.4.1; Site 7—Amphibious Base Landfill; 14th paragraph: Will this activity occur before 10/1/15? If so, please note that fact here. If not, please add this activity to Table 2-8.

Response: Track change rejected. Text has been added to explain why the Site 7 ROD Memo to File is no longer needed.

Comment 2: Section 2.4.1; Site 9—Driving Range Landfill and Site 10—Sewage Treatment Plant Landfill; 20th paragraph: If the GW LTM UFP SAP will be completed by 10/1/15 note that fact here. Otherwise, add the activity to Table 2-9.

Response: The groundwater LTM UFP SAP has been added to Table 2-9.

Comment 3: Section 2.4.1; Site 11—School of Music Plating Shop; 26th paragraph: Why doesn't the table include the UFP SAP work and the re-injection work?

Response: The Site 11 1,4-dioxane groundwater sampling UFP SAP was completed in FY 2015. The text associated with the UFP SAP was added to the paragraph. The re-injections have been added to Table 2-10.

Comment 4: Section 2.4.1; Site 11a—Building 3033 Former Waste Oil Tank; 9th paragraph: Shouldn't this table include the post-ROD memo to file activity and at least 4 LTM entries because we're still doing LTM annually?

Response: The tracked changes text has been revised to show the Site 11a ROD Memo to File being finalized in September 2015. The LTM entry in Table 2-11 spans the entirety of the five year SMP period and is in line with how LTM is presented for all other sites and in previous SMP reports.

Comment 5: Section 2.4.1; Site 12—Exchange Laundry Waste Disposal Area; 17th paragraph: Should this table include the re-injection work?

Response: The track changes text has been revised to show the Site 12 re-injections being completed in September 2015. No changes to the table were made.

Comment 6: Section 2.4.1; Site 13—Public Works Pentachlorophenol Dip Tank and Wash Rack; 20th paragraph: Should this table include the re-injection work?

Response: The table has been updated to include the Site 13 re-injections.

The above response (and other Team comments/responses) will be incorporated into the final version of the JEB Little Creek FY 2016 through 2020 Site Management Plan.

Please do not hesitate to contact me at 757-671-6280 if you have any questions concerning the responses.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Nat O P.', is written over a light blue circular stamp.

Nathaniel Price, P.E.
