LANTNAVFACENGCOM
Attention: Code EV22-DH Ms. Dawn Hayes
Lafayette Annex, Building A
6506 Hampton Boulevard
Norfolk, VA 23508

Dear Ms. Hayes:

Subject: Revised Sections for Final RI/HHRA/FS for Sites 9 and 10, NAB Little Creek
Contract N62470-95-D-6007
Navy CLEAN II Program - Contract Task Order 159

Enclosed for your review and comment are three copies of changed pages for the above referenced document. Each packet includes the following revised sections/pages to be inserted into your current copies of the draft document as noted:

- Slip cover and spine (replace existing)
- Title page, signature page, and table of contents (replace existing)
- Executive Summary section (replace existing)
- Pages 2-1 and 2-2 of Section 2 (replace existing)
- Section 3 - entire text section (replace existing)
- Section 5 - entire text section (replace existing)
- Table D-2 of Appendix D (new table to be inserted at the end of the appendix)
- HHRA Backup Tables 11, Site 9 (new tables to be inserted at the end of Appendix E.2)
- HHRA Backup Tables 11, Site 10 (new tables to be inserted at the end of Appendix E.3)
- Tables 3 and 4 of Appendix F (replace existing)

The above pages and sections were revised or added to address comment letters from EPA (dated September 25, 2000 and January 8, 2001) and VDEQ (dated September 29, 2000) concerning the draft document. The comments and revisions primarily affected the uncertainty section of the HHRA (Section 3.6), which was revised to address uncertainties associated with the unknown risks from subsurface soil, and the description of institutional controls in the FS (Sections 5.3.3 and 5.3.4).

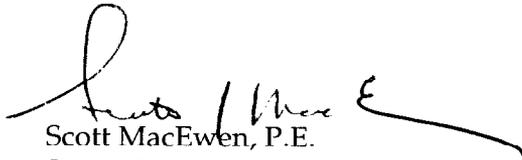

In addition, the Executive Summary and Section 3 were revised and Appendix E, tables 11 were added to present a statistical comparison of site COPCs to basewide background

concentrations. The basewide background data had not been available at the time that the draft HHRA was prepared. Section 3.2.1.2 was revised and Table D-2 was added to present and discuss the groundwater dioxin data collected in June 2000. Table 3 of Appendix F was revised to add "proposed MCLs" as a TBC criteria, and Page 2-2 of Section 2 was revised to correct a typo.

Copies of these changed pages are also being distributed to members of the Little Creek partnering team as listed below and to others who had received copies of the draft document. If you have any questions or need clarification on any issues, please do not hesitate to call me at (703) 471-6405, extension 4332.

Sincerely,
CH2M HILL

Scott MacEwen, P.E.
Senior Project Engineer
