Subject: Final SASE Report,
Study Area (SA) 04 - Coddington Cove Rubble Fill Area,
Naval Station Newport, Newport RI

Dear Mr. Lovely and Ms. Crump:

On behalf of Mr. James Gravette, U.S. Navy NAVFAC Mid-Atlantic, I am providing to you each for concurrence, two copies of the Final Study Area Screening Evaluation Report for the SA04 as identified above.

You will recall that a draft SASE report for SA04 was provided to you in April 2011, and a revision was provided in May 2012. This revision was followed with updated risk assessment submittals in January 2013. Comments and follow-up documentation continued through March 2013 when it was agreed that the SASE would be held until some further evaluation of groundwater could be conducted. That effort is continuing, and therefore this report is being provided as a final document to address soil, sediment, and surface water at the site. A final decision regarding groundwater at SA04 will be made through an addendum to this SASE, after the groundwater evaluations are concluded.

If you have any questions regarding this submittal, please do not hesitate to contact me at 978-474-8434.

Very truly yours,

Stephen S. Parker, LSP
Project Manager
