Re: CLEAN CONTRACT N62472-90-C-1298; CONTRACT TASK ORDER #172  
PHASE II RI/FS FOR MELVILLE NORTH LANDFILL AT NETC NEWPORT

Dear Mr. Scully,

The Phase II RI/FS Work Plan for the Melville North Landfill was forwarded to the Navy's Quality Assurance Contractor for review specifically for laboratory certification.

As a result, the contractor performed a quality assurance review of the work plan and generated the enclosed comments. These comments are being forwarded for your information. However, the Navy does recommend the enclosed comments be reviewed and consideration be given to incorporating them into the development of any future work plans.

Laboratory capability/capacity assessment was also conducted with the results provided in the second enclosure.

If you have any questions, please don't hesitate to call me at (610) 595-0567 ext 147.

Sincerely,

*Debbie Carlson*
