1. Per reference (a), the planned usage of the subject Installation Restoration site does not differ from the current usage. That is, the Naval Undersea Warfare Center will utilize the paved portion of the site as storage space; the gravel road will be maintained as a walking trail and as an access road for security vehicles that inspect the fenceline; the unpaved open portions will be used as a recreational space for all Navy personnel.

2. If you have any questions, please contact Ms. Cornelia Mueller at (401) 841-7561.
