RE: Work Plan, Tank Farm No. 4
NETC, Newport, RI
Document Review and Approval

The Rhode Island Department of Environmental Management (RIDEM), Divisions of Waste Management (DVM) and Site Remediation (DSR) have completed the review of the above-referenced document. All information provided in the document received June 12, 1996 is approvable. However, the Department cannot issue a final approval until an addendum to the Work Plan detailing tank demolition procedures is submitted and approved.

Also, please be advised that all work on site and surrounding the site must be evaluated for impact on wetlands and be performed in accordance with the RIDEM Rules and Regulations Governing the Administration and Enforcement of the Freshwater Wetlands Act. All required permits or variances must be obtained through and approved by the RIDEM Division of Freshwater Wetlands.

If you have any questions, please call me at 401-277-2797, ext. 7504.

Sincerely,

Eric A. Beck, P.E.
Principal Sanitary Engineer
Division of Waste Management
UST Program
