RE: Building Demolition, Derecktor Shipyard, Naval Education and Training Center, Newport,
Rhode Island

Dear Mr. Wheeler:

During the recent Restoration Advisory Board Meeting the Navy indicated that it plans to demolish a number of structures at the former Derecktor Shipyard. As you are aware past releases associated with this area are currently being investigated. Therefore, the Navy must contact this Office prior to taking any action at the site, such as, demolition of structures, removal of contaminated materials or waste, and filling, sealing or removing floor drains, outfalls, UICs, etc.. In addition, be advised that, as indicated in recent correspondence from this Office, the area of concern extends beyond that delineate in the recent submittal. Please contact this office at 401-277-3872 if the Navy has questions concerning this matter.

Sincerely,

Paul Kulpa
