

DEPARTMENT OF THE NAVY  
NAVAL SUBMARINE BASE NEW LONDON  
GROTON, CONNECTICUT 06349-5000

6280

Ser 834/322

07 JUN 1990

The Honorable Catherine J. Kolnaski  
Mayor City of Groton  
P. O. Box 907  
Groton, CT 06340

Dear Mayor Kolnaski:

We invite your community's participation on the Technical Review Committee (TRC) established to guide the Naval Submarine Base New London's Installation Restoration Program. The Installation Restoration Program was established to identify, characterize and mitigate environmental or public health hazards presented by historic hazardous material disposal practices. The TRC's role is to provide community input into the process and identify local concerns related to our past disposal sites.

We originally established our TRC in 1988 with the United States Environmental Protection Agency, the State of Connecticut and the Towns of Groton and Ledyard as members. We are now proposing committee membership to all communities that border on the Thames River. We will hold our next TRC meeting on June 21, 1990 at 10:00 a.m. in Building 135 on the Naval Submarine Base. At that time our consultant, Atlantic Environmental Services will present our plan of action for accomplishment of our Installation Restoration Study. Please call Mr. W. L. Mansfield at 449-4481 and advise him of who will attend to represent your community.

Sincerely,

  
J. N. LOYACANO  
CAPT, CEC, USN  
Public Works Officer
