Subject: Five-Year Review Public Notice

Attachments: 5-Year First Public Notice 07.doc

John Balahan, Legal Section

I would like the attached Public Notice (Word File) to run in the Legal Section of The New London Day on Saturday February 10, 2007. I will need a notarized confirmation notice for it. I would also like to have a proof if possible and have it on the Day's web page. Please bill the TtNUS account for the notice. The invoice should be sent to my attention with the following job number on it: 112G00578. If you have any questions or concerns, please contact me.

5-Year First Public
Notice 07....

Thanks for the help,

Corey Rich | Civil Engineer and Project Manager

PUBLIC NOTICE

The Department of the Navy, Naval Submarine Base-New London (NSB-NLON), in conjunction with the United States Environmental Protection Agency and the Connecticut Department of Environmental Protection, has completed its second five-year review of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) sites located at NSB-NLON in the towns of Groton and Ledyard, CT. The CERCLA program (also known as Superfund) authorized Federal action to respond to the release of hazardous substances into the environment. The goal of the review was to evaluate the effectiveness and protectiveness of the remedial actions taken to date at the CERCLA sites at NSB-NLON. The final report, entitled "Second Five-Year Review Report for CERCLA Sites at Naval Submarine Base New London" was completed in December 2006. The findings of the report will be presented at the Restoration Advisory Board meeting at 6:30 p.m. at the Best Western Olympic Inn located at 360 Route 12, Groton, Connecticut on Wednesday, March 14, 2007. The public is invited to this meeting. The Second Five-Year Review Report and other related documents for NSB-NLON are available for review at the following locations:
